

Epigenetic Healing Cycles Workshop

Prerequisites: None

Duration: 1 Day

May 3, 2025

10 am - 6:00 pm

\$175 plus eBook

Your DNA is not your destiny

The new epigenetic science reveals that your perceptions control your biology. This places you in the driver's seat, because if you can change your perceptions, you can shape and direct your own genetic expression.

We want to turn on the genes of longevity, wellness & vitality and turn off the genes of aging and death/apoptosis. Your genetic profile is not your destiny, you can change your gene expression by the things you think, say, and do, the things you eat, avoid or listen to and what you ponder in your heart.

Dr Bruce Dewe, K-Power® Co-Founder

In this workshop you will learn:

- How to help reduce mental and emotional suffering related to universal fears, 8 major job stresses and 25 common relationship issues.
- The basics of Epigenetics - the epigenome is in control of gene expression. You are not a victim.
- 12 Epigenetic modulators you can use for good.
- The power of the General Circulation of Energy.
- 5 Energy Cycles including Resilience (STPs), Vesuvius (TRVs), and Self-Soothing & Calming.
- To clear subconscious murmurs of past traumas.
